

Description:

Mile2's Vulnerability Assessor course, C)VA provides an solid understanding of the tools an IT engineer needs to review an Information System. In this course, you will learn the importance of vulnerability assessments and how they are used to prevent serious cyber break-ins. Lessons include understanding malware and viruses and how they can infiltrate an organization's network. After you take this course, you will be able to assess a company's security posture and perform a basic vulnerability test. Plus, you will be able to generate reports to guide new security implementation.
